“ *In 2008, I attended the ABATE bike rally at Lake Perry, KS with Toad and Deb and several other good friends. On the ride there I applied sun block as much as possible. I'm a redhead and tend to burst into flames if exposed to too much sun. But I got severely burnt anyway. My whole forehead was blistered and everyone expected me to turn right back around and head back home. I was in rough shape. But Debra Ann stepped up and put me under her wing and said "I'll fix you up. I'm like a pharmacy on 2 wheels." Ever since then she has been like a mother to me. If it wasn't for her I would have been miserable the entire trip. She cared for me and helped me without question because that's what she was about, and it's what she loved to do. I miss her already. I was lucky to have known her. But, I know she is where she belongs up above.*
