“ *Dianne and my 3 year old son had a special thing that whenever we would part he would say, "see you later alligator" and in return she would say "after a while crocodile." Then one day she surprised him with a toy crocodile she bought at the store. He and his younger siblings have played with that crocodile every day for the last 2 years. Such a blessing to be gifted by an acquaintance, showing that love knows no bounds. Thanks for the memories and smiles we continue to make because of that gift!*
