“ *I am stuck in disbelief that you, my mom....have moved on. Even though I was not ready I am relieved that you have peace. Now I think more about our good memories: phone conversations ending with me saying I love you. Then you would say you love me more. I would finish with I love you mostest. Cwismus time.....CWISMUS time [Christmas time] was your favorite and will not be the same without you, or most anything else. Missing you a lot Mama - Coe.*
