“ We started out as just going to him for body work, then he became a client of mine and then we became great friends. I walked with him thru the last 10 rough years. I am glad I stopped in and talked for about an hour with him shortly before this happened. He truly was a kindred spirit and I know he's looking down from heaven on all of us. You are complete now. I am truly going to miss stopping in and talking with him. We always talked about family and life in general. He always wanted Cal and I to move to Mexico with him when he retired. I wish we could have.

“ Over the last four or five years, Jim did a lot of work for me. We spent a lot of time talking not just about cars but also about our family and health. Jim expressed to me the love he had for his family. I will miss just stopping to see him. He would always take time to talk to me . You have a new body now and no more worries about that damn leg.
