“ Growing up together in Juniata with parents that spent time together, gave up lots of time together too. John was three years older, but always willing to include my sister and I and teach us something along with way. I still have the model cars he helped me build and one particular memory involves their family swimming pool. He thought it was too cold, we wanted to swim anyway. He made a deal with us if the Time and Temp guy said it was x degrees he would take us swimming. Time and Temp was off by a degree or two, we whined and he took us anyway. We froze, but he still took us!

A true gem who has impacted and helped so many. Praying for all those he touched as they grieve his loss.

“ *Love isn't love till it's given away, and John gave us all so much love in so many "different" ways. His laugh, his humorous actions, just everything. He did an oh so real "Darth Vader" under the mask to Jake and Joey. They loved it.*

If he was working with you on something, he made it "fun" Always.

He helped Tom pour my patio concrete on a "very hot" June 2 day (I mean it was almost 100) and then the concrete driver scrambled to get us more help before the concrete set up. What a guy. And he helped dig out the area for the patio when he decided we needed some bigger equipment than just those shovels. So off he went and came back with a bobcat.....(did not ask from where, but he had lots of connections).

He loved kids, my grandsons as well as his own twins. So much fun he had with them.

*I will miss him. My thoughts and prayers go out to you all. Love,
