“ we had so much fun at working together at Plant Island. I remember one time we were reorganizing the retail section of the business and we were laughing about something and just then the boss walks through and told us we were having too much fun. We were supposed to be working, which we were. That is how much we loved working with each other and attending college.

“ I remember Marcia as one of my special girl cousins. Much younger, so we never got to know each other as adults except through family but a beloved person. My mother would always share the family news and we would hear about all the happenings. My memory is of a sweet beautiful little girl, friendly and fun. May God give you all happy memories to treasure and lasting remembrances of love and joy. Elaine Krob Pauls
