“ *Today was one of the hardest things I have had to do. Say goodbye isn't easy. I know I will see you again, but it doesn't help fill the void I have. I love you and always will*

“ *Matt was a really cool brother, his philosophy growing up was that he could beat on us but if someone else was to do it he would go after them. He never told me I couldn't do something because I was a girl. He was my biggest supporter growing up next to my mom. I will miss you baby brother. Love you lots, Robin*

Matthew is my uncle we only had 8 years difference in our age so when I was young he was more like the older brother who had to take his annoying little bro with him when he wanted to go to a friends house. He taught me many of things a boy should know growing up like how to shoot a bb gun, how to ride a motorcycle and how to treat women with respect. He never downed me for mistakes thru life he would let me know what I did wrong and then asked me how he could help me fix it of course after he call me yo yo or something sarcastic. Matthew was just the coolest uncle any one could want . I really love him and he will be greatly missed and always remembered.

Matt was my baby brother and remember him asking me to marry him when he 4 years old so he could take of me and my unborn baby. I remember telling Matt that brother and sister could not marry each other that it wasn't done. We had good relationship when I came back to El Paso in 1984. We went mountain climbing, we've enjoyed fishing and camping together. I've helped Matt and his family countless times. I will always love my baby brother and will miss him deeply. Rest in peace, you are now with mom and dad and Eight Ball his beloved dog. My prayers to your family and ours. Love Myra

“ *I knew Matt as a loving, caring, father and husband. He also was willing to share help with me when my brother was diagnosed terminal with cancer. He loved his wife and family and was willing to show that to world, that is a special man who can do that. The world is a poorer place without his presence, but the impact he had on so many people will be carried on forever.*
